Second annual list recognizes the top oceanfront architects in the U.S. and Caribbean

OCEAN HOME MAGAZINE × AUGUST 29, 2016

Ocean Home magazine, America's premier luxury coastal lifestyle publication, announces the **Ocean Home 50 2016**, its signature awards showcasing the Best of the Best in oceanfront architecture. This second annual list represents the finest coastal architects practicing today in the United States and the Caribbean.

"The Ocean Home 50 is a unique collection of extraordinary talents in coastal architecture and design," says *Ocean Home* editor Andrew Conway. "Our 2016 list includes some iconic names – including Richard Meier and Robert A.M. Stern – but also an array of lesser-known yet equally masterful architects creating exceptional ocean homes from Hawaii to The Hamptons.

"This year, we welcome 18 new names to the OH50 List: renowned architects such as Steven Harris, Allan Greenberg, Max Strang, Campion Platt and Fred Stelle, not to mention three outstanding female architects, Deborah Berke, Annabelle Selldorf and Toshiko Mori," Conway adds.

The OH50 List is featured in the October/November 2016 issue of *Ocean Home*.
